We're **#DFAProud** to kick off our 2023 CoLAB Accelerator with five outstanding companies: **Bankbarn**, **Metha AI**, **OptaHaul**, **Ourobio** and **Windfall Bio**!

Innovation moves us forward, brings us together and makes us stronger — that's why it's one of the core pillars of our Cooperative.

One way we foster a culture of innovation is through DFA's CoLAB Accelerator, a 90-day comprehensive program that accelerates and grows startup companies in the ag-tech sector.

We look forward to introducing each company, more in detail, over the coming weeks!
